## The Bulletin

Norwich, Tuesday, Sept. 4, 1917.

### THE WEATHER

The winds along the north and mid-  
dle Atlantic coasts will be moderate  
northwest. Conditions.

A disturbance from the south At-  
lantic apparently is moving toward  
Bermuda, where pressure has fallen  
considerably.

Temperature changes were not de-  
cided, but they were lower than on  
Sunday from the upper Mississippi  
valley eastward.

Generally fair weather will prevail  
Tuesday and Wednesday east of the  
Mississippi river.

Forecast.

Eastern New York and New Eng-  
land: Fair Tuesday and probably on  
Wednesday, moderate temperature.

### GREENEVILLE

Heavy Traffic on Central Avenue -  
Repairs to Road Appreciated - Personal  
Notes and Notes.

It would seem that the street de-  
partment had repaired Central Ave-  
nue just in time as the old rutty road  
would have caused much inconve-  
nience in the rush of traffic bound to  
the fair that passed over it Monday.

The newly tarred and sand-filled  
made fine going for the motorists and  
had the added advantage of being  
practically dustless.

Personal Notes.

J. Q. Smith of New Bedford is visit-  
ing at the fair Monday and is  
crowded with the throngs that local  
people did not reach their homes  
until late in the evening.

### TAFTVILLE

Scouts Return From Camp - All Re-  
port Fine Time - Personal and  
Notes.

Monday night the local Boy Scouts,  
Troop No. 10, returned from their  
camp at the Draybridge. They left  
the village early Saturday morning  
and camped in two good sized tents.  
Although the heat of the day was  
reported that they had a fine time.

Personal Notes.

Howard Dunne left Monday morning  
for California where he will make his  
home.

The number of people from the vil-  
lage going to and from the fair kept  
the extra cars full and overflowing  
during the day.

There was quite heavy automobile  
traffic through the village Monday of  
people who were spending their hol-  
iday on the road.

### INJURED IN MOTORCYCLE

Edward Delia Brought to Backus  
Hospital in Unconscious Condition.

Injured in a motorcycle accident  
near the Totokett mill office in Ocum  
on Monday about noon, Edward Delia  
of Plainfield was rushed to the Backus  
hospital in the auto ambulance which  
responded to the call. The man was in  
an unconscious condition when he ar-  
rived at the hospital, but as his in-  
juries were not as bad as at first  
thought, he will probably be able to  
leave the hospital today (Tuesday).

### CUTICURA HEALS

**BLETTCHES ON ARMS**

That Itched and Burned. Hard Crust  
Formed Like Scale. Face Broke  
Out. Two Cakes Cuticura Soap  
and Two Boxes Ointment Healed.

"Great blotches broke out on my arms  
that would itch and burn so that when  
I scratched them they spread till my  
arms were covered. Then a hard crust  
formed just like a scale. My face  
broke out the same way and the eruption  
caused disfigurement. I lost a good  
deal of sleep. My arms  
were inflamed so I could not  
roll up my sleeves and I  
was prevented from doing my work."

"I sent for a free sample of Cuticura  
Soap and Ointment. It gave me relief  
I bought more, and I used two cakes  
of Cuticura Soap and two boxes of Oint-  
ment when I was completely healed."

Yours truly, Josephine How, Adams  
Court, Biddeford, Me., July 20, 1916.

You may rely on Cuticura to cure for  
your skin, scalp, hair and hands. Noth-  
ing better to clear the skin of pimples  
and blotches, and to soothe and heal

## PLAID GRADUATE AWARDS ARE MADE

List of Prizes Announced Monday by the Supervisor—Exhi-  
bition in Thayer Building a Decided Success—Gratify-  
ing Results Attained by Children During Summer Months

The list of winners in the sewing,  
crocheting and knitting classes of the  
Norwich playgrounds was announced  
by Supervisor Mary McKay on Mon-  
day.

The first prize for plain sewing was  
awarded to Miss Lillian Temples of  
Lake street, who made a little boy's  
comber suit. The second prize went  
to Miss Marion Delucia also of the  
Lake street grounds who made a neat  
pair of trousers for a boy.

The prize for crocheting was given  
Miss Lillian Murphy of Mt. Pleasant  
street who made a baby's jacket.

The first prize for embroidery was  
awarded to Miss Shirley Douglas of Ho-  
bart Ave., for a cross stitch pillow top.  
The prize was a sweet grass sewing  
kit. Second prize, a sewing basket  
was given to Miss Mary Shapiro, Lake  
street for a bureau scarf.

The prize for sewing and embroidery  
was donated by Mrs. William H.  
Shields and that for knitting was giv-  
ing by Miss Mary E. Rogers of School  
street.

The judges were Mrs. William H.  
Shields, Elizabeth Huntington, Miss  
Matilda Butts.

The exhibition was held in the Thayer  
building on Saturday and was largely  
attended by parents and friends. The  
exhibit was a success and the girls de-  
veloped a great deal of credit for their  
work which was exceedingly neat and  
well done. The playgrounds have ac-  
complished more this year along these  
lines than any previous years and all  
who took the opportunity to attend the  
exhibit were well pleased with the  
work of the children.

The exhibit was in charge of Miss  
Theresa Leonard in the morning and  
Miss McKay had charge in the after-  
noon.

All the playgrounds closed Saturday  
noon after a most successful and en-  
joyable season. The attendance this  
past summer has been the best of any  
year.

### CERTIFYING ACCEPTED

IN SECOND CALL.  
Local Exemption Board Buys All Day  
Monday at Headquarters.

Labor day proved one of real labor  
for the local exemption board, as they  
were busy all day at the headquarters  
in putting on the finishing touches to  
the list of accepted in the second call  
of 400. This work is being hurried  
along with that care and precision  
which has marked the efforts of the  
local board from the beginning of the  
year.

When the New London county recruits  
to the new national army begin to  
arrive at the training camp, they will  
find that the training which is to fit  
them for Uncle Sam's fighting force  
they will find that despite the fact  
that the contractors have been at  
work but three months, the great New  
England army cantonment is practi-  
cally completed.

The camp is about 80 per cent. com-  
plete. There are 3,500 men employed  
in the construction of the camp and  
the work is being rushed at top  
speed. Officially the camp became the  
headquarters of a division of the new  
national army when the first of the  
recruits arrived at the camp.

Hodges J. together with several of-  
ficers of his staff, arrived to begin the  
big task of recruiting the recruits into  
a hardened body of fighting men.

While efforts during the past week  
have been devoted largely to the con-  
struction of the barracks which the men  
of the conscript army are to occupy,  
multitude of other activities are be-  
ing carried on with speed and rapid  
progress is being made each day.

There are about 150 of the 192 bar-  
racks now completed and ready for oc-  
cupancy.

The soldier boys will find that no  
effort has been spared to insure their  
comfort during their stay at the camp.  
The work on the buildings has been  
rapid, but the government has insisted  
that the buildings be completed in a  
manner and that no point be sacri-  
ficed which will add the comforts of  
home to the barracks.

While the construction work is go-  
ing on attention is being given by  
prominent men and women of Massachu-  
setts to the heavy army training and  
their happiness and contentment for  
the drafted boys, through the estab-  
lishment of a recreation program.

Included among these is a \$50,000  
hotel in Ayer center, and numerous  
clubhouses and bathing pavilions for  
the use of the recruits.

David I. Walsh of Pittsfield, is one of  
the leaders in the work of the com-  
mittee on recreation and is utilizing his  
energy and effort to have the plans culmi-  
nate in a most satisfactory manner.

With the work on the infantry bar-  
racks turning their attention to the build-  
ings for the heavy artillery and the  
light field artillery. There are to be  
16 buildings erected for the use of the  
heavy artillery and the light field ar-  
tillery. The buildings will be required for the light  
unit. The buildings are to be of  
the most modern design and in-  
clude a most comfortable and stable  
for the horses.

The boys will not want for medical  
care and attention for the work on the  
1,000-bed hospital on the infantry  
hill is progressing rapidly. This im-  
portant institution will be one of the  
most modern and comfortable of any  
in the state. The hospital will be in  
charge of Maj. Glenn I. Jones, who  
has had charge of the sanitation work  
at the camp and who has been re-  
cently promoted to the rank of major.

The American Red Cross society will be asked to furnish  
the nurses for the hospital.

The sewage and lighting fac-  
ilities at the camp also are being ad-  
vanced with astonishing rapidity.  
The water situation, which for a  
time looked serious, has been solved sat-  
isfactorily, and the recruits will be as-  
sured of an abundant supply of pure  
drinking water, especially safe-  
guarded against disease - breeding  
germs.

Well, have been sunk in many  
places and have given forth an un-  
usual amount of steam. At the same  
time the arrangements for the camp  
being made to get an additional sup-  
ply from the metropolitan water basin  
at Clinton. This water will be con-  
veyed to the camp through pipes  
made of California wood, guaranteed  
against insensate conditions and dis-  
ease.

About 22,000 electric lights will be  
required for the complete lighting of  
the camp. Wires have been laid and  
the Connecticut River Power and  
Transmission Co. is building a giant  
powerhouse on the river.

The camp for the sole purpose of fur-  
nishing the fuel for the illumination.  
Many of the poles and lights have  
been set in place. The transformers  
have been set in place in the power-  
house, and the principle of the work  
has been explained now giving atten-  
tion is the wiring of the barracks and  
officers' quarters.

The water system is about com-  
plete, and the excellent topography of  
the land for perfect drainage has  
been a big factor in the planning.  
The drainage system is being im-  
proved by experts as one of the most  
practical and safest methods for car-  
rying off sewage waste, will be used,  
and the filtration plant is ready for  
work. The workers at the camp lay  
more than a mile of sewer pipe each  
day, and the laying of the tank can  
be best conveyed when it is known  
that the laying of that amount of  
sewer pipe is considered an all-season  
job in many large cities.

A large remount station is being  
planned and soon will be under con-  
struction. One of the last things that  
will be done will be the building of  
roads of a material similar to maca-  
dame. The roads have been cut already  
and the contract for the finishing work  
has been let, and will require but a  
short time to complete when the men  
set on the ground.

### RAISED \$40 FOR

**WAR RELIEF WORK.**  
Jewish Children Conducted Successful  
Fair in Hebrew Institute Hall.

The Ladies of the Jordan, a local or-  
ganization of Jewish girls between the  
ages of 12 and 18, raised through  
their efforts a sum of \$40 for war relief  
work. Of this sum \$37.50 goes to the  
Benevolent Society of the Hebrew In-  
stitute, \$12.50 to the Jewish school  
children of Palestine.

The fair was held in the Hebrew In-  
stitute hall and was patronized  
largely by the Jewish community.  
The credit for the success of the event  
is due to Mrs. Raymond L. Clarke, the  
organizer, and to the help of the  
Benevolent Society, the Ladies of the  
Jordan, the Hebrew Institute, and the  
Jewish community.

During the evening there was dan-  
cing by Rose Wiener, piano selections  
by Esther Sherevsky and singing by  
Miriam Gordon, who was accompanied  
by Bessie Rubin.

New Haven: By the will of Sarah  
M. C. Doolittle Lane, his late wife, Dr.  
Frederick Carr Lane of this city will re-  
ceive a bequest of \$10,000 from the  
\$150,000 estate. George Carr, brother  
of John Lane, \$20,000 and each of  
her nieces and nephews \$1,000 each.

has been let, and will require but a  
short time to complete when the men  
set on the ground.
